

### DESCRIPTION

The Gelato Pro 5KSC is the “must have” countertop machine for restaurants world-wide.

Functional, powerful, fast and convenient, it grants the highest quality in gelato/ice cream and sorbet preparation.

Continuous operating capability allows rapid production of several different flavours. The machine body is entirely made of stainless steel, like the mixer blade, featuring replaceable inserts.

#### Air cooled

**Magnetic safety device:** When the lid is lifted, the paddle stops automatically

**Large opening:** Allows the addition of ingredients

**Drain system:** Drain system for easy cleaning

**Switch:** Refrigeration and paddle switch

**Paddle:** Stainless steel paddle with interchangeable scrapers

**Density control:** Density control: When RPM drops due to Gelato reaching correct density or paddle slow because of obstruction such as ice build up. Paddle stops, preventing damage.

### FEATURES

- Preparation time 12-15 minutes
- Easy cleaning through the drain valve
- 304 stainless steel blade with adjustable scrapers
- ABS Housing
- Hourly production 5 kg, 7 litres
- Air cooled
- 304 stainless steel inner bowl
- Stainless steel mixing paddle with removable scrapers
