MANUFACTURERS OF COMMERCIAL REFRIGERATION

AUTUMN / WINTER 2013 EDITION

HEAVY DUTY, DISPLAY & MEDIUM DUTY REFRIGERATION

STERLING PRO

MANUFACTURERS OF COMMERCIAL REFRIGERATION

WELCOME

Sterling Pro is a leading manufacturer of commercial refrigeration products. With years of experience in the catering and hospitality trade we know how demanding these environments can be.

From our office in Hampshire our expert team is focused on designing a range of products that meet the demands of busy catering and retail sites. We understand the importance of reliability and affordability - so we've designed both in our latest range of appliances.

In this catalogue you'll find a range of high specification products at economic prices. We've listed as much detail as possible but if you feel you need more help you can contact us directly.

RELIABILITY

Commercial Refrigeration is an essential part of any commercial kitchen, the success of your business depends on it. Our products have been specifically sourced for outstanding reliability, the Heavy Duty range is manufactured in Europe and uses outstanding components - built to last.

VALUE

The Sterling Pro product range has been designed to offer the best value on the market. More space than our competitors means better value for money. More economical than our competitors means cheaper to run. With Sterling Pro we can guarantee you are getting the very best value on your new purchase.

AVAILABILITY

We carry all models in stock all of the time, add to this full spares backup means the very best in availability in the market today. Rapid delivery means orders can be despatched by our dedicated delivery firm usually within 2-3 days.

PAGES 4-13

HEAVY DUTY REFRIGERATION

In a busy catering environment you need to be able to rely 100% on your equipment, both mechanically and structurally. It is this simple fact that inspired us when designing the Heavy Duty range. The factory has been producing high-end refrigeration for over 20 years and we have put all of this experience in to producing a range of Heavy Duty refrigeration that is both durable and affordable. Lead times are short so you can have your items without delay and spare parts are available off-the-shelf.

PAGES 14-20

DISPLAY REFRIGERATION

Reliable, Durable, Affordable - This was the ethos when designing our market-leading bottle cooler range. Often the hardest-working of all refrigerated equipment, bottle fridges need to be tough, reliable and easy to use. The Sterling Pro range offers exceptional reliability and thanks to handy features like self-closing doors & clear LCD displays are simple to operate. The result is a long-lasting and dependable bottle cooler that does exactly what it should do: keep bottles cold!

PAGES 21-23

MEDIUM DUTY REFRIGERATION

Safe and secure storage for all food products in commercial environments is an absolute necessity and our range of catering fridges and freezers have been designed specifically with that in mind. All of the refrigerators and freezers meet the temperature requirements of food hygiene regulations and come with an external temperature display as standard. Cabinets are available in a choice of sizes and finishes to suit all your kitchen requirements.

STERLING PRO BLAST CHILLERS

BRAND NEW FOR 2013 - Sterling Pro blast chillers offer a reliable and robust solution for the rapid chilling & freezing of freshly cooked food. These brand new cabinets reduce bacteria production in food prolonging its shelf life. Our powerful refrigeration system offers caterers the option to chill or freeze in the same cabinet – no need for two machines!

Durability is assured by using AISI304 18/10 stainless steel for the entire interior and exterior of these cabinets, nothing has been left to chance. The interior joints have been curved for easy cleaning. These outstanding cabinets are manufactured in the EU in accordance with the latest HAACP directive.

CHILL CYCLE TIME: +90°C TO +3°C - 90MINS
FREEZE CYCLE TIME: +90°C TO -18°C - 240MINS
