

# Display chillers

Another fresh vision from Foster

# Flexible display solutions for fresher food

# The ultimate display chiller and the right solution for you

Market leading Foster quality and innovation, for front of house display

Foster Display Chillers | Industry Leading

Foster specialise in building class-leading efficient professional refrigeration equipment you can rely on: ensuring your food is kept fresher, for longer.

Now, with a new range of Display Chillers, Foster brings its quality, experience and reliability, from its professional kitchens to your front of house service: offering stylish economical-to-run chiller solutions adaptable to suit all your display needs.

This complete range of eight new models, all manufactured in the UK, has been designed with customer service in mind. Available as either open fronted 'grab and go' units, or as a closed fronted display for assisted service, Foster Display Chillers fit perfectly across the retail catering market. From coffee shops and patisseries, to cafes, self-service buffets and supermarkets, the comprehensive range of models offer an option to suit every budget and business need: all available for immediate delivery.

Displaying chilled food in a retail environment is all about achieving the right aesthetics with the right levels of convenience and practicality. You want the right quantities, well displayed, looking good and tasting fresh. The new range from Foster does all that and more, increasing your sales potential and enhancing your reputation as a high-quality food retailer.

Foster products are designed to the most exacting standards, meaning you can buy with total confidence knowing that your purchase is high-quality and robust, with the energy-efficiency you demand from a technologically advanced refrigeration product.

# Closed front assisted service display chillers

# Open front 'Grab and Go' self service display chillers

Image (above): FDC1200C Closed front assisted service display chillers

In its closed front format, the Foster Display Chiller provides a stylish solution to the demands of assisted service: showing your customers the best possible view of your food, in an ergonomically designed easy access display. Fresh is always best, and with the closed front design, your pre-prepared cakes, pastries and delicatessen can stay at their best without compromising your service times.

With a full width toughened glass curved front, and sliding doors to the rear, the range is packed with the innovation you would expect from Foster. Bright LED canopy and undershelf lighting, and Anti Condensation Technology (ACT) feature across the full range, whilst with full width toughened glass shelving and end panels merchandise is clearly displayed from every angle.

Quick fact:

- > Brilliantly bright LED lighting in top canopy and on every shelf significantly enhances product display

Quick fact:

- > ACT (Anti Condensation Technology) helps glass to remain clear, maximising product display

Image (above): FDC1200 Open front self service display chiller

If you want best in class for self-service display, Foster Display Chillers are for you, giving your customers every opportunity to buy on impulse without losing produce quality.

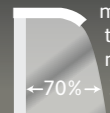

warmer air entering the display ensuring your food keeps both its taste and texture.

The open fronted range is perfect for the storage and display of pre-packaged products such as drinks, sandwiches, sushi and dairy produce. Foster's innovative air curtain protects your merchandise from

**"Perfect for packaged goods such as drinks and sandwiches"**

Quick fact:

- > Glass end panels over 70% wider than many models in the market, maximising your display window!

Quick fact:

- > Thick toughened glass for enhanced safety across both open and closed fronted models

## Everything you would expect from a Foster..

### Innovation

- > Foster uses a modelling technology known as Computational Fluid Dynamics to calculate accurate airflow and temperature simulation - meaning the cold air gets to where it is needed
- > Advanced airflow technology creates a protective air curtain ensuring product is kept at the correct temperature
- > Innovative design means the controller can be positioned to the front or rear – allowing on site flexibility

### Quality and Reliability

- > British manufactured – built in our world-class UK manufacturing facility certified to ISO9001 quality and ISO14001 environmental standards
- > Manufactured using superior 304 stainless steel – the 'gold standard' in performance finishes meaning quality is assured
- > Cutting-edge product development, design and manufacturing
- > The best materials, the strongest designs, the finest ergonomics, the fullest specifications and total reliability

### Unrivalled Performance

- > Genuine temperature retention means the Foster Chiller range always keeps products at the right temperature
- > Our refrigeration system ensures that even your most delicate products maintain their freshness and appeal
- > Plug-in for instant and flexible use
- > Intelligent controller with easy to read digital display ensures even temperature retention throughout – keeping your food fresher for longer

## ...and more.

### Energy Efficiency

- > Energy saving LED lighting as standard
  - Bright & clean – really bringing your products to life
  - On average lasts 10x longer than fluorescent lighting, whilst emitting a fraction of the heat output

### Affordability

- > Available on interest free credit allowing you to simply spread the cost of your new display chiller over a full year instead of a one off up front outlay\*

### Hygiene and Safety

- > Fully removable shelves & supports for ease of cleaning
- > The high quality 304 stainless steel interior and exterior finish ensures a food safe superior surface for easy wipe-clean efficiency

### Service and Maintenance

- > Removable front cover and slide out condensing unit allows easy access for service, minimising down time

### After Sales Support

- > There when you need us: 2 year parts and labour warranty as standard\* for complete peace of mind
