SIGILLATRICI

Fast and easy to use sealers are indispensable devices for food management. These can seal all types of plastic bags for food, with thicknesses of up to 2mm and across a length of 300 or 400mm. The timer fitted at the front is used to seal bags of different thicknesses, while model S400/2T, fitted with a cutter, eliminates the remaining parts of the bags.

| Model | S 300/2 | S 400/2 | S 400/2T |
|---------------------|-------------------------|-------------------------|-------------------------|
| Power | watt 510 | watt 700 | watt 700 |
| Sealing temperature | °C 150 max | °C 150 max | °C 150 max |
