

DISHWASHER P-100

2.5 kW wash tank and 6 kW boiler

WARE WASHING
PASS-THROUGH DISHWASHERS

FEATURES AND BENEFITS

- ✓ A hood type dishwasher for both straight in line and corner situations -suitable for washing trays, as well as all types of plates, cups, glasses and cutlery.
- ✓ Professional washing with double system of rotating wash and rinse arms top and bottom.
- ✓ Hood operated, auto cycle start.
- ✓ Manufactured from catering grade AISI 304 2B stainless steel and incorporating top quality components.
- ✓ The inside of the machine features rounded corners, the elimination of angles avoiding the accumulation of dirt.
- ✓ Precision positioned water jets guarantee optimum washing result for even the most stubbornly stained glasses. Easy to assemble, boltless rinse spray arms.
- ✓ A double filter system provides effective wash pump protection that is easily removed (for maintenance and cleaning) and replaced, without tools.
- ✓ A magnetic micro-switch stops the wash cycle, in the event of the hood being raised prematurely.
- ✓ Standard features include adjustable feet for levelling.
- ✓ A stainless steel, top of tank filter system is also included as standard.
- ✓ Rinse aid dosing equipment.
- ✓ Adjustable washing tank and boiler temperature and security in the boiler.
- ✓ Thermal cycle delay option, guaranteeing a minimum final rinse temperature of 85°C for each and every rinse cycle.
- ✓ Sammic ware washers are designed for easy and fast on-site maintenance.
- ✓ 100% tested.
