

Vegetable preparation machine CA-401

COMMERCIAL VEGETABLE PREPARATION MACHINE WITH AN HOURLY OUTPUT OF UP TO 650 KG.

1 speed motor block and a large production attachment. Discs are not included*.

The shape of the pusher has been conceived to deliver comfortable usage, fast processing and the ability to handle larger products such as cabbage. The high-positioned ejection disc allows the handling of more product without loss of quality in the finished product.

- Stainless steel construction and high quality material, all suitable for contact with food.
- New production technology that give a uniform, highest-quality cutting result.
- Large production head with lateral blade, which distributes the product inside the inlet, and handles entire products such as cabbage.
- The core drill (included) can also be used to achieve the same purpose.
- High positioned ejection disc allowing to eject a bigger product quantity.
- The large range of high quality discs and grids allows the operator to obtain over 70 different styles of product.
- Ergonomic design.
- Lateral product ejection, which allows the appliance to be placed in a less deep working surface.
- This directs the product avoiding splashing.
