## SAFETY INSTRUCTIONS

### IMPORTANT, PLEASE READ INSTRUCTIONS FULLY BEFORE USE

These appliances have been designed to warm popcorn prior to serving and therefore during its use parts of the appliance will become hot. All personnel must be given sufficient supervision and training in the safe use of this appliance.

**ALL APPLIANCES OTHER THAN THOSE FITTED WITH A SEALED MOULDED PLUG MUST BE FITTED BY A QUALIFIED ELECTRICIAN, IN ACCORDANCE WITH CURRENT REGULATIONS.**

The unit should be installed in compliance with the INSTALLATION INSTRUCTIONS and the NATIONAL REGULATIONS in force at the time. Particular attention should be paid to the Health and Safety at Work Act.

To prevent shocks, all appliances whether gas or electric, must be earthed.

To avoid scratching the highly polished exterior surface of this equipment whilst in transit, the protective film on the exterior surfaces has NOT been removed.

It is IMPORTANT that this protective film is peeled off before the equipment is used.

### **ENSURE THE APPLIANCE IS ISOLATED FROM THE POWER SUPPLY BEFORE INSTALLING, CLEANING OR MAINTAINING THE APPLIANCE**

These products have been designed, constructed and marketed in compliance with safety requirements of :

**EEC Directive "Low voltage" 73/23;**

**EEC Directive 93/68.**

This product is suitable for contact with foodstuffs, and complies with **EEC Directive 89/109.**

The product(s) stated above are designed and built to comply with the following standards:  
**BS EN 60335-1**

### **TECHNICAL DATA**

Nominal Voltage: 240 V ~ 50 Hz  
Nominal Current: 0.8 Amps  
Nominal Wattage: 200W  
Dimensions (mm): 395 w X 395 d X 775 h

### **INSTALLATION INSTRUCTIONS**

#### **ELECTRICAL INSTALLATION**

**ALL APPLIANCES OTHER THAN THOSE FITTED WITH A SEALED MOULDED PLUG MUST BE FITTED BY A QUALIFIED ELECTRICIAN, IN ACCORDANCE WITH CURRENT REGULATIONS.**

#### **OPERATING INSTRUCTIONS**

1. Switch on power supply, the red lamp will indicate power is ON
2. Allow unit to warm for 10-20 minutes before filling with popcorn.

#### **CLEANING AND MAINTENANCE**

**ENSURE THE APPLIANCE IS ISOLATED FROM THE POWER SUPPLY BEFORE INSTALLING, CLEANING OR MAINTAINING THE APPLIANCE**

Ensure that the appliance has cooled sufficiently.

Cleaning should be carried every day. Clean the external surfaces of the appliance with a damp cloth. Avoid using abrasive materials.

**CAUTION:** Never clean the appliance with water jets.

Appliance should be annually P.A.T (Portable Appliance Testing) tested for continued electrical safety.

#### **MAINTENANCE INSTRUCTIONS**

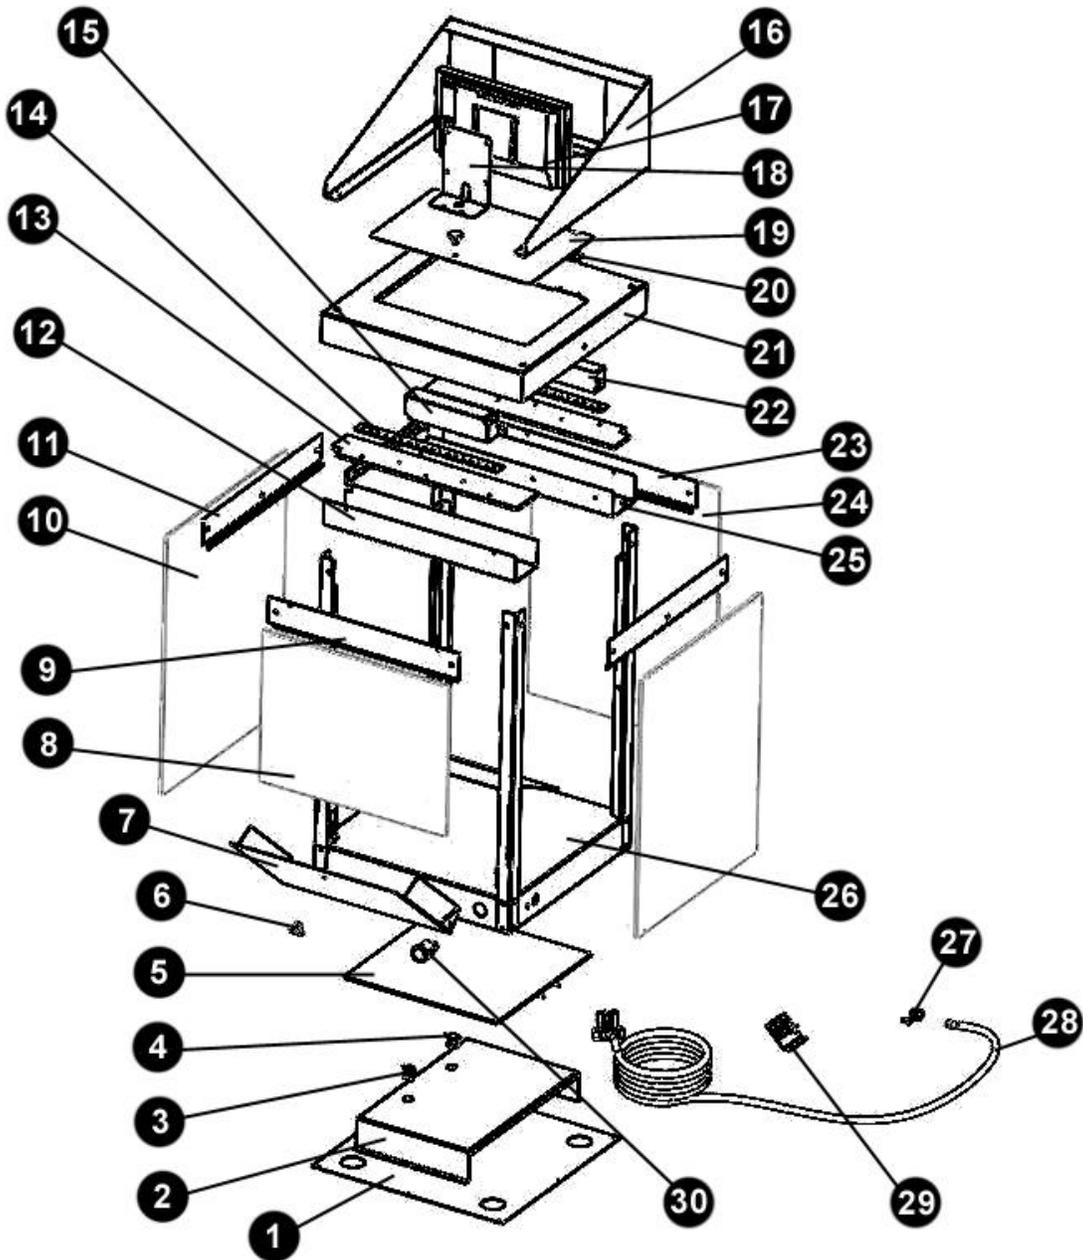

**MAINTENANCE AND SERVICE MUST ONLY BE UNDERTAKEN BY A QUALIFIED ELECTRICIAN / ENGINEER**

## **FAULTS**

The most common fault is that the unit is not connected with the mains supply, and so the mains light does not come on.

Try another appliance in the socket, check the socket is turned on, check the wiring to and in the plug, and the plug fuse. One of these may cure your fault. If this is not the case, and for any other problems, first contact your distributor.

If the mains light comes on but the unit does not heat. Check the thermal trip.

### **IMPORTANT NOTICE**

***Disconnect the appliance from the mains supply before removing the base.***

Remove base and press thermal reset button.

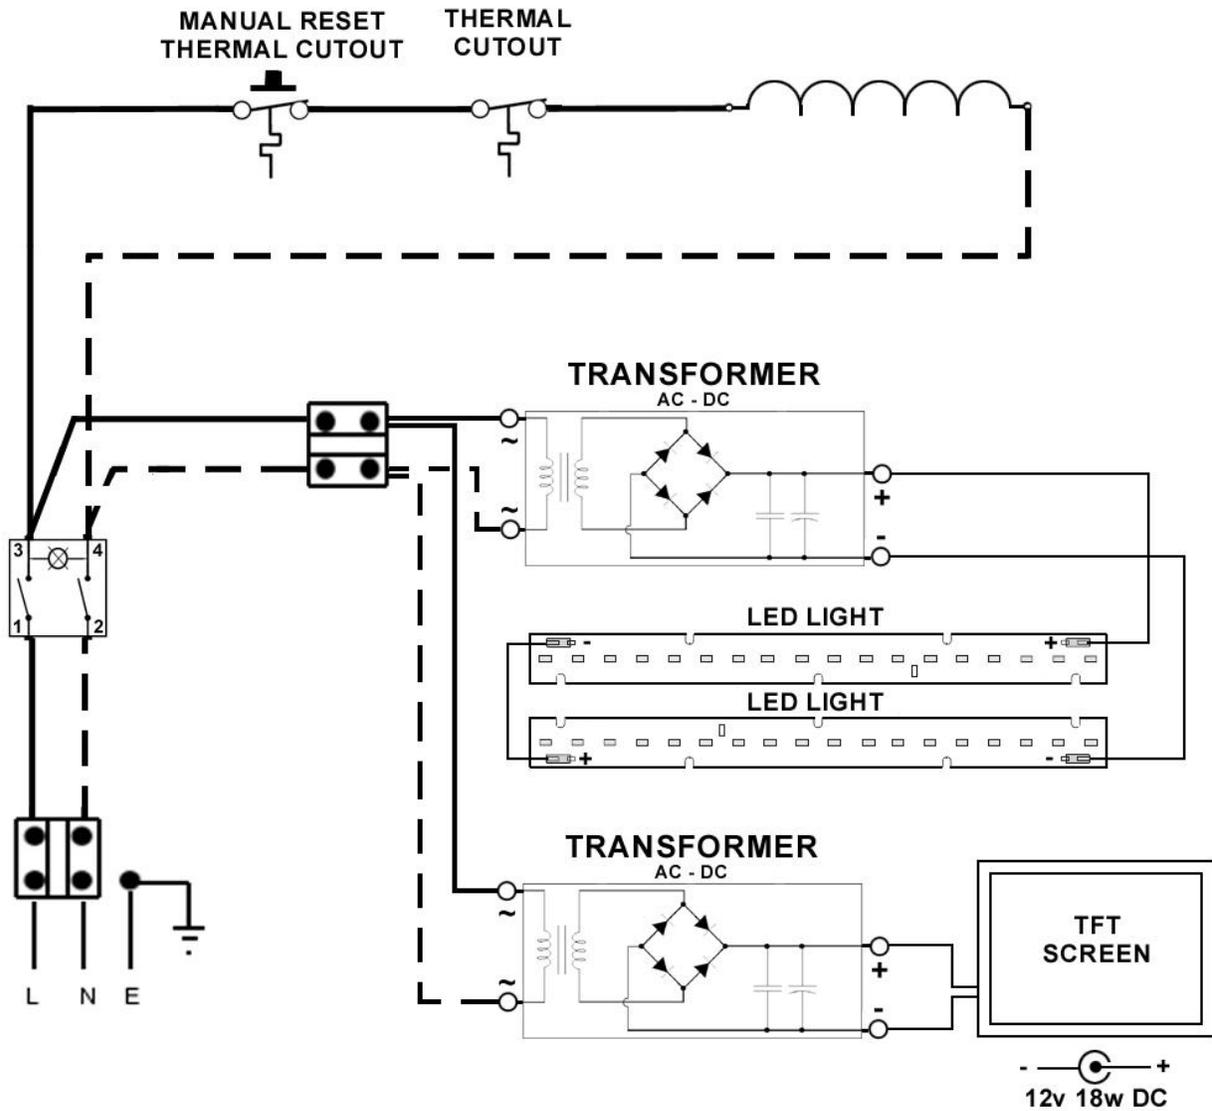

If the appliance still does not heat then contact your distributor.

Any spares or replacements must conform to the relevant standards and the Health and Safety at Work Act and only be fitted by a qualified electrician or competent person.

### DISPOSAL INFORMATION

This appliance is marked according to the **European directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE)**.

By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.

A symbol on the product, or on the documents accompanying the product, indicates that this appliance may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

Disposal must be carried out in accordance with local environmental regulations for waste disposal.

For more detailed information about treatment, recovery and recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

**TELEPHONE: SERVICE (44) 01332 875665**

**FAX: SERVICE (44) 01332 875536**

Parry Catering recognises our obligations to the **EU DIRECTIVE** covering the waste disposal of electrical and electronic equipment (**WEEE**), Parry Catering are committed to this policy in order to help conserve the environment.

At the end of this unit's life you **MUST** dispose of it in an approved manner. You **MUST** not discard the unit or place it in the refuse bin.

You have several options:

- a) Take the unit to an approved WEEE scheme company, there will be one in your area.
  
- b) Take the unit to an approved waste disposal site; many sites are managed by your local authority.

Contact the Parry Group Ltd on the Sales number 01332 875544 for further information on disposal.

There will probably be a charge for this service which will depend on the physical location of the unit and size you will be given a collection price for a curb side collection based on commercial rates prevailing at the time.

It should be noted that the unit to be collected should be suitably packed and sealed to prevent dangerous gases and fluids from escaping. The condition of the unit must also be clean to comply with health and safety regulations.
