

Salamander Grill

The SGM800

The SGM800 is a large powerful salamander with a 800mm grilling area with access from 3 sides. Ideal for grilling and finishing, our precise height adjustment system allows you to bring the right heat to your food giving quality results on time every time. The powerful twin radiant burners provide even heat across the grill and are adjustable for both intense and gentle grilling.

Features 2 radiant burners (60mm wide), slide out drip tray with safety catch.

Optional wall mounting bracket available ref SM2
